Position: Güç Elektroniği ve Sürücü Sistemleri Yazılım Takım Lideri

Target Organization: ASELSAN (Ankara, Turkey)

Dear Hiring Committee at ASELSAN,

I am writing to express my strong interest in the Güç Elektroniği ve Sürücü Sistemleri Yazılım Takım Lideri position at ASELSAN.

With over 15 years of professional engineering experience - including 8+ years leading multi-disciplinary engineering teams of up to 30 engineers - my background directly aligns with your requirements for high-reliability embedded software, Model-Based Design (MBD), and powertrain control systems.

Throughout my career across defense electronics and automotive platforms, I have directed end-to-end architectures from concept to dyno characterization and mass production, adhering strictly to ISO 26262 ASIL D, ASPICE, and AUTOSAR standards.

I would welcome the opportunity to discuss how my leadership and technical ownership can drive the next milestones for ASELSAN.

Sincerely,

Ahmet Halit Ünsal
