Position: Quantitative Trading & Research - Prime Finance Quantitative Research - Vice President

Target Organization: Chase- Candidate Experience page (London, United Kingdom)

Dear Hiring Committee at Chase- Candidate Experience page,

I am writing to present my candidacy for the Quantitative Trading & Research - Prime Finance Quantitative Research - Vice President role at Chase- Candidate Experience page.

As the architect of AURA (<https://www.auratrading.org/>), a proprietary 24/7 algorithmic execution system spanning crypto spot and equity markets, I have developed rigorous walk-forward optimization pipelines, successive halving parameters, dynamic risk regime detectors, and low-latency exchange interfaces in Python 3.11 and C++.

I am eager to bring this proven algorithmic engineering rigour to Chase- Candidate Experience page's quantitative strategies.

Sincerely,

Ahmet Halit Ünsal
